

## Position Title: Layout Quality Checker

We are currently looking for a **Layout Quality Checker** to join our growing team working on projects across Alberta.

### Who we are?

Carson Integrated is a well-respected consulting firm of natural resource management professionals specializing in environmental, forestry, and GIS consulting services to clients in the Upstream Oil & Gas, Pipeline, Sand & Gravel, Electrical Utility, and Forest industries throughout Alberta. Our team advocates for our diverse client base that provides distinct opportunities, exceptional challenges, and a work environment rich in variety.

### Why work with us?

People are our greatest asset! Because of this, we are committed to developing our employees by providing ongoing training opportunities and rewarding performance that exceeds expectations. Our team is made up of a group of people who are friendly and thrive in a busy (and sometimes unpredictable) work environment. They are fearless and willing to overcome new challenges.

Not only do we work hard, but we like to have a good time at events like our infamous annual Bocce tournament and having drinks together at the end of a busy week. We provide our employees with a progressive, flexible, and collaborative work environment, encouraging an entrepreneurial approach to business coupled with the opportunity for success. At Carson Integrated, you'll be part of a larger team of diverse professionals committed to excellence.

### Some things you will be responsible for:

To be successful as a Quality Checker at Carson Integrated, you will have experience with most of these areas and are eager to learn and develop the ones you are missing:

- Monitoring the quality of forest mensuration and layout projects
- Mentoring and coaching forest technologists
- Ensuring that personal and crew safety is a priority
- Coordinating activities with the forest planning team and our clients
- Quality assurance and quality control of all field data

Preference will be given to applicants who have experience with the following:

- Block and road layout
- Timber cruising
- PSPs and TSPs
- Regeneration surveys
- Digital collection, preparation, and management of field data

Experience and skill set to thrive as a Forest Technologist:

- A university degree or diploma in Forestry or a related field
- 3+ years of forest planning experience (preferably in Alberta)
- Supervisory experience
- Knowledge of forestry policy, regulations, and legislation in Alberta
- Competency with GIS and experience using ESRI ArcGIS products
- Excellent organizational and analytical skills
- Strong MS Office skills
- Capable of enduring physically demanding field work
- Solid communication skills
- Experience operating an ATV and snowmobile

If you are a self-learner, a team player, a problem solver, a self-starter, and have the desire to thrive and grow in an environment rich in variety, then email your cover letter and resume to:
