

Sustainability Forester

At Pinnacle Renewable Energy (Part of Drax), we are working towards a zero-carbon, sustainable future and you can help make this future a reality.

If you are looking for a challenging forestry opportunity that will allow you to grow within the green energy space, then Sustainability Forester position maybe your next best move.

So, what will you be doing?

In this role, you will ensure the traceability of sustainable fibre from the forest to the customer with considerations around the raw material certification needs for individual sales obligations.

You will report to the Director of Sustainability and will work closely with our Fibre Procurement team. You will be accountable for monthly reporting requirements on fibre sustainability compliance. You will be required to manage the monthly incoming chain of custody; supplier claims and prepare raw material deliveries for sale.

You will travel to our pellet facilities, forestry sites, fibre processing and storage sites, supplier facilities and offices and Government offices to ensure we are meeting our sustainability obligations and goals. All the while, gaining an intimate understanding of the production and fibre process, supply chain and how it fits into the bigger picture of our business and sustainability.

Who you are?

You have 2-5 years of forestry experience in industry, government, consultancy or another similar role.

You possess a Registered Professional Forester (RPF) or Registered Professional Technologist (RPFT) designation with the AAFMP, or are eligible for registration.

You have a strong understanding of Alberta policy, guidelines, regulations, and legislation related to forestry and consultation.

You have a strong knowledge of forest certification schemes including PEFC, SFI, CSA, and FSC.

Knowledge of biomass certification schemes including SBP and GGL considered an asset.

It would be great if you have knowledge of LIMS/3Log programs, and you should have a strong proficiency with MS Office suite of programs.

What's it like to work at Pinnacle (A Part of Drax)?

At Pinnacle, we're at our best when we help each other achieve the things that are important to each of us.

We're passionate about our role in providing a supply of stable, renewable energy and if you want to play your part, then why not apply today?
